

OFFICE OF PROFESSIONAL EDUCATION

CENTRAL

The Office of Professional Education offers a robust portfolio of certifications, non-credit courses, and customized training. We offer flexible delivery options, including online, hybrid, classroom, and on-site at your facility. With the expertise of our partners, we deliver practical, relevant education that supports skill development, credential attainment, and long-term career success!

CCSU Office of Professional Education is happy to offer a **20% tuition discount** to Council 4 members. This discount applies to courses offered through our open enrollment classes offered, as well as all self-paced online programs offered through MindEdge.

Why Invest in Non-Credit Training?

- Build Skills for Career Growth
- Learn about Innovative Topics That can be Translated to Your Career Immediately
- Strengthen Your Resume

Upcoming Classes

-AI in Human Resources

May 6, 2026

Whether you're a seasoned HR professional or just beginning to explore this space, you're standing at the edge of something transformative. From recruitment to retention, from analytics to automation – AI is not the future of HR, it's already here!

-Practical Agentic AI for the Workplace

June 3, 2026

This course will introduce some common types of agents (workflow agents, research agents and chatbots) as well as provide hands-on practice in some of the more common agent use cases.

-Impactful Speaking

June 8, 2026

Looking to polish those presentation skills for small, medium or large audiences? Practice, Practice Practice!

-AI Essentials for Business

June 8, 2026

AI Essentials gives professionals a practical, confidence-building introduction to AI—showing how to think strategically, use AI effectively in daily work, and turn insights into action. Learn to treat AI like a capable team member and start delivering real business value right away.

-Project Management Foundations

June 12, 2026

Looking to get more organized? If you are new to project management, this is a good introductory course. This interactive training workshop enables participants to learn and practice 20 proven project management tools.

-High Performing Teams with DiSC

June 12, 2026

This program experience is designed to get teams working and communicating at the highest levels through interactive, experiential (learn by doing) team challenges coupled with in depth reflective debriefs.

-Performance Management

June 15, 2026

This course builds participants' skills in giving effective feedback, applying coaching techniques on the job, and creating action plans to boost productivity.

-High Performing Teams (1/2 Day)

July 10, 2026

This program experience is designed to get teams working and communicating at the highest levels through interactive, experiential (learn by doing) team challenges coupled with in depth reflective debriefs.
